

*Enjoy Bathing...*

Committed to  
Excellence.....

From the beginning, Linnet has focused on designing and manufacturing bath fittings, thus having the ability to absolutely control and choose the raw materials used, and to manufacture its products with technologically advanced equipment, by simultaneously controlling electronically its production, from designing, packaging, to final consumption.

An important breakthrough, that distinguishes Linnet is designing and manufacturing plumbing faucets and offer faucets with aesthetics similar to global standards while maintaining charming characteristics.

Says Mr. Mukesh Rustagi. "These aesthetics that combine classical and minimal elements of antiquity with

the dynamic requirements of architecture and decoration, is one of Linnet's many breakthroughs."

This evolutionary and dynamic bath accessories company is evolving with consistency by maintaining a steady course guided by the principles of international business as they are directed by international organizations.

Quips BNN. "Linnet is responsive to the constantly evolving consumer demands within the economic context, whatever these demands may be."

This statement is exactly the vision and target of the generation that founded and supports Linnet till today, but also the commitment of the next generation, that ambitiously is going to try to steer Linnet towards the future.
